

Noida International Airport, also known as Jewar International Airport, is an upcoming international airport being constructed near Jewar in Gautam Buddha Nagar District, Uttar Pradesh in India, which will serve the National Capital Region (NCR. Once completed, it will be an alternative to Indira Gandhi International Airport in Delhi by relieving its high and rising traffic load, and is planned to be India's largest airport. The Noida International Airport Limited (NIAL) will be the implementing agency on behalf of the Government of Uttar Pradesh. The airport is to be developed through a public-private partnership model (PPP) . The airport's capacity will be enhanced in four phases over a period of 30 years, from 12 million to 30 million, 52 million and eventually 70 million passengers per annum. The airport company will move from one development phase to another once passenger volume reaches 80% of the built capacity. By the final phase, the airport will also have two runways. In the first phase, the airport will span 1,334 square metres, and by the time fourth phase is completed it will be spread across a total of 5,000 square metres. When the airport starts flight operations by the end of 2024, it will have one runway and one passenger building with the capacity to handle 12 million passengers per year and 1 lakh air traffic

movement (aircraft movements include landings as well as departures. One departure and one arrival is counted as two aircraft movements). It will also have 28 parking stands. will start seeing test flights in mid-2024 and commercial operations by the end of that year, according to its CEO Christoph Schnellman. We are expecting 5 million passengers on day one without a single spillover from the IGI (Indira Gandhi International) airport,” Arun Vir Singh, CEO of NIAL Noida International Airport Ltd, told Moneycontrol in an exclusive interaction.

Q 1. Who is the CEO of this operation

- A. Christoph Schnellaman**
- B. Yogi Adityanath**
- C. Natrajan chandershakern**
- D. None of them**

Q 2. Where jewar international airport is constricted

- A. Kolkata**
- B. Uttar Pradesh**
- C. Delhi**
- D. Mumbai.**

Q 3. How much total spread area of this Airport

A. 1334 square meteres

B. 5, 000 Square Meter

C. 2200 sq. Meter

D. 2000 sq. Meter

Q 4. When it will start

A. In 2023

B. 2024

C. 2025

D. 2030

Q 5. How much capacity of Noida international airport in starting phase

A. 12 million MPA

B. 5 million MPA

C. 50 million MPA

D. 30 million MPA
